Description

Our company was founded in 1968 by Varouzan Nisanian and is engaged in tires wholesaling. With the same solid values and the same consistent service to our customers, the next generation is continuing the successful 50-year course. The company is based in privately owned facilities in Koukaki Attica and serves with rapid deliveries throughout the Greek territory. We import and distribute tires for all types of vehicles: cars, 4x4, motorcycle, light and heavy trucks, buses, agricultural and earthmoving machinery, tractors and lift trucks. We work with all Greek delegations and all the great houses of Europe and China. Taking into consideration the safety of drivers and passengers and taking into account the needs covering each vehicle, we recommend the best solutions to tires and always at competitive prices.
